PROFESSIONAL SUMMARY

I am currently seeking a Intern Full Stack Developer or Intern Software Engineer position where I can apply my skills and passion for building modern, user-centric web applications. As a highly motivated and dedicated undergraduate pursuing a BSc (Hons) Specialized in Information Technology at SLIIT, I specialize in web development, with hands-on experience in the MERN stack (MongoDB, Express.js, React, and Node.js).I am passionate about leveraging technology to solve real-world problems and bring meaningful solutions to life. With a strong academic background and a solid foundation in information technology, I possess the technical, analytical, and problem solving skills necessary to thrive in dynamic development environments.In addition to my university studies, I have successfully completed both the G.C.E. Advanced Level and Ordinary Level Examinations, further reinforcing my commitment to continuous learning and growth in the field of software development.

SKILLS

✓ MERN Stack ✓ Express.js ✓ React.js ✓ Node.js ✓ Python ✓ Kotlin ✓ HTML/CSS ✓
Tailwind CSS ✓ PHP

EDUCATION

- **Bachelor of Science (Honours) in Information Technology – Specialized in Information Technology | SLIIT | 2023 – Present**
 - **General Certificate of Education - Advanced Level (GCE A/L) - 2022 (2023) Sri Sumangala College, Panadura, Sri Lanka Commerce Stream – 2B 1C**
 - **General Certificate of Education - Ordinary Level (GCE O/L) - 2019 Sri Sumangala College, Panadura, Sri Lanka A6 B1 C2**
-

CERTIFICATIONS

- Certificate of Git Training
- Certificate of MongoDB
- Node.js Developer Path
- Responsive Web Design
- AAT 2 Examination Completed
- Full Stack Development (MERN)

VERSION CONTROL

- Git
- Github

PROJECTS

AUDIOMART

Link - <https://frontend-audioooz.vercel.app/>

Developed a full-stack audio equipment rental platform with role-based access (admin, customer), secure authentication, product listings with image uploads, order tracking, cart, user profiles, and admin dashboard. Built using React, Tailwind CSS, Node.js, Express, MongoDB, and Supabase.

FLYNEST

Link - <https://fly-nest-ui.vercel.app/>

Built a full-stack flight booking web app with secure JWT authentication, role-based access (admin/customer), real-time updates, flight search, passenger management, and booking history. Tech Stack: React.js, Node.js, Express, MongoDB, Supabase, Tailwind CSS, stripe.

AGROVISTA

Developed a full-stack platform to connect farmers, buyers, suppliers, and instructors, streamlining agriculture trade in Sri Lanka. Features include product listings, orders, payments, inventory, and educational resources. Built with React, Tailwind CSS, Node.js, Express, MongoDB, and Supabase using Agile methodology.

Healthcare Management System

Built a web-based healthcare system using PHP and MySQL to manage patient records, doctor schedules, appointments, and prescriptions. Included secure admin and user panels, CRUD operations for medical data, and real-time appointment tracking to streamline clinical workflows.

Personal Finance Manager

Android App (Kotlin) Built a mobile finance management application using Kotlin for Android. The app enables users to record daily income and expenses, categorize transactions, and track budget performance through a clean, user-friendly interface and real-time summaries.
